About Us

Mega Systems and Control Company

Mega Systems & Control Company (MSCC) was first established in 2010 as a system integrator solution company in Egypt aiming to contribute and transfer the latest technological development to our country.

After a success story since 1990 in Saudi Arabia and Gulf Area, an opportunity arose to use the gained low current expertise to serve the Egyptian Market. Our goal to become one of the most significant and influential companies for Low Current Systems in Egypt.

Our company's policy is to thrive for excellence by providing high quality products and services through our respective teams and affiliated partners.

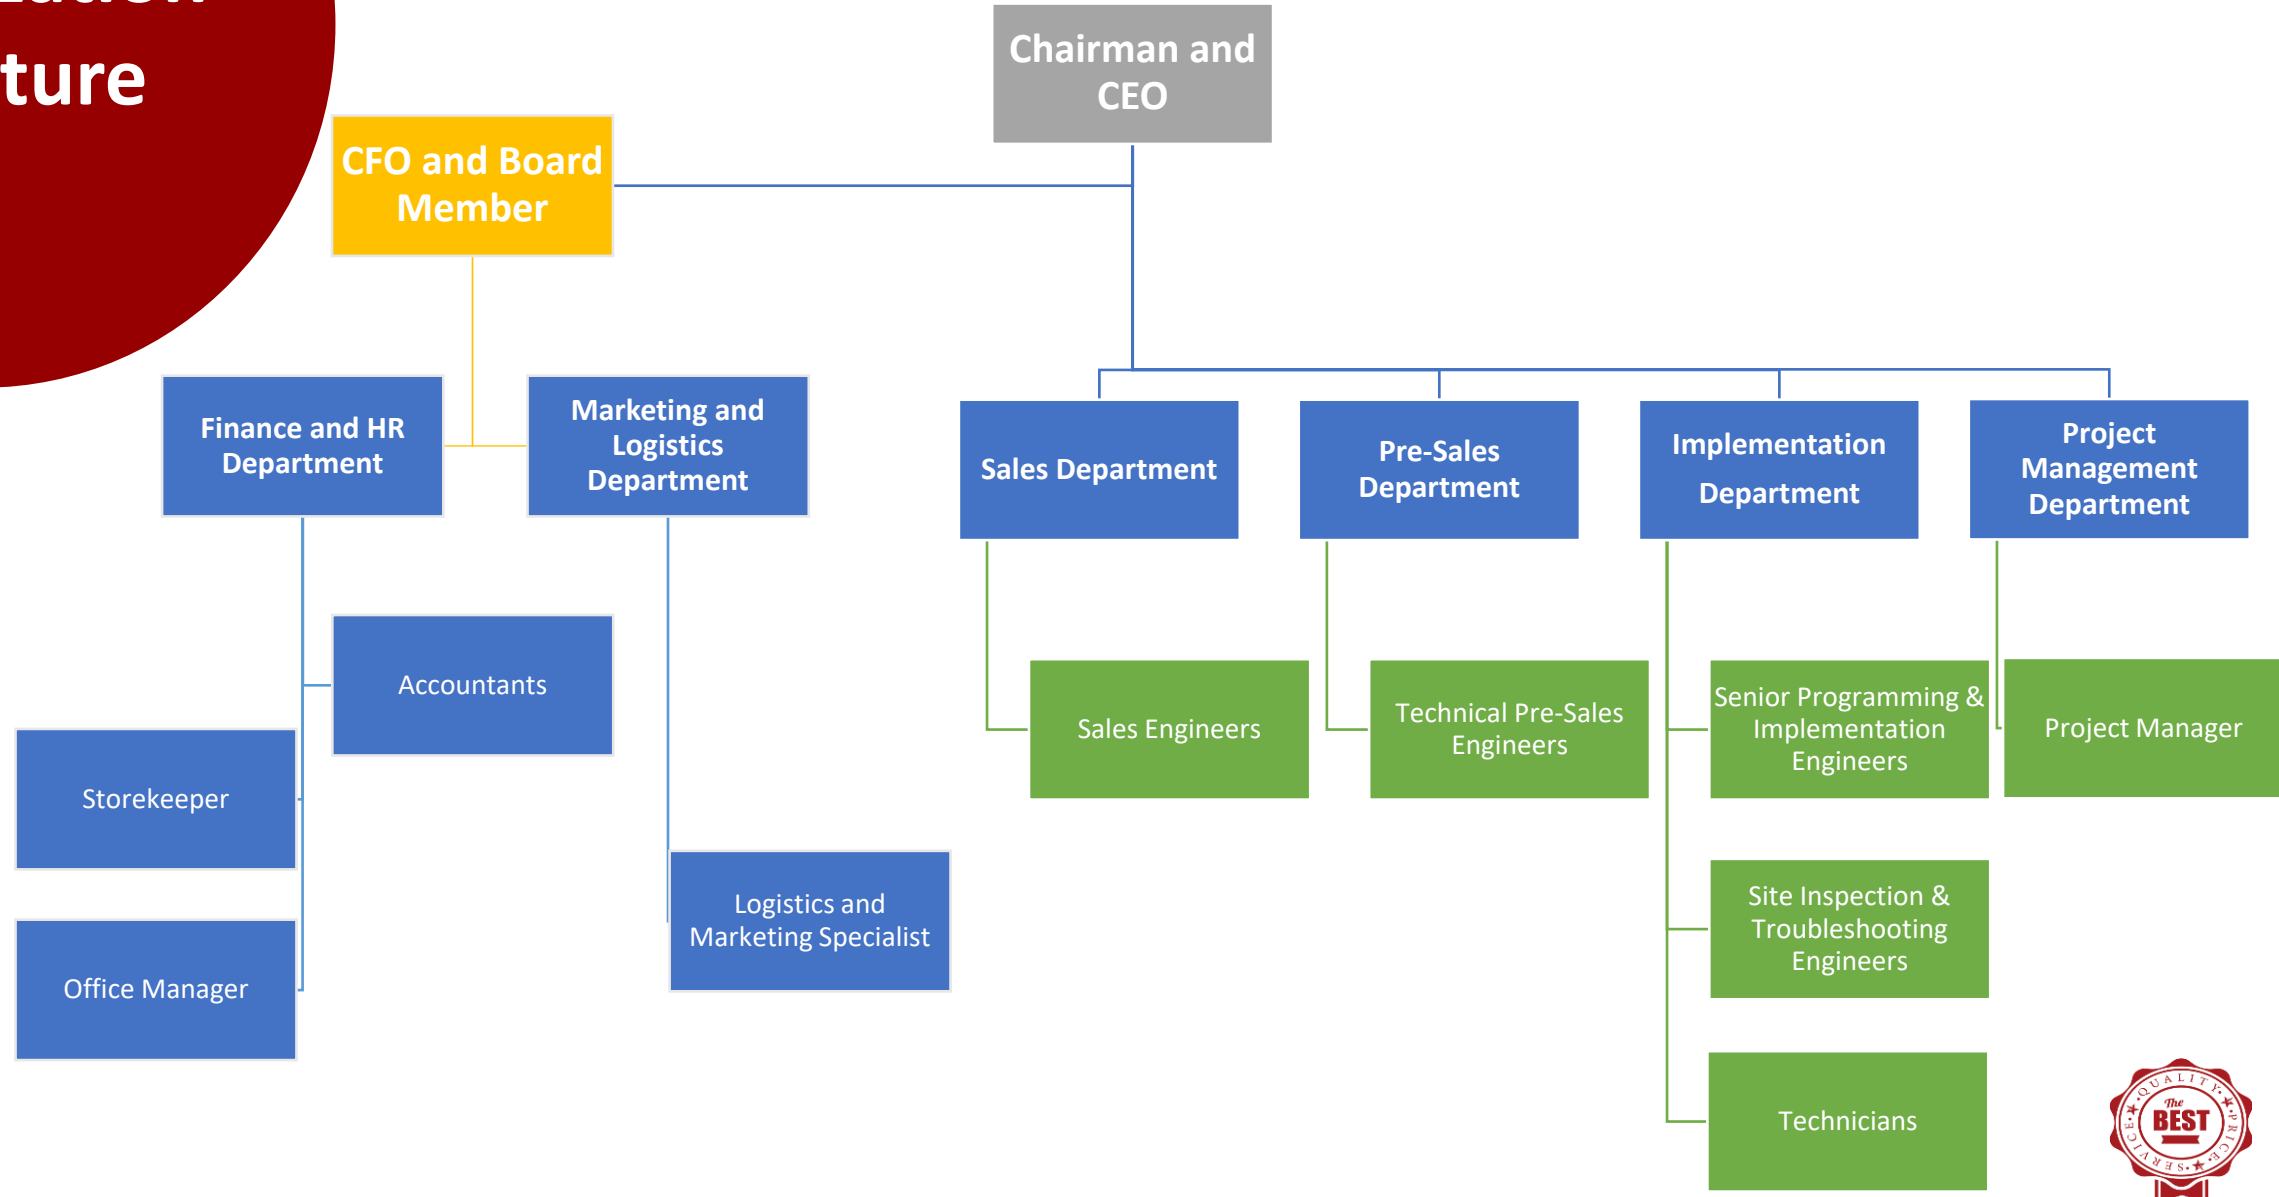

MSCC provides one of the industry's most complete line of Fire Alarm, Public Address, Audio Visual, Access Control and integrated security systems.

With our strong knowledge, dedication and commitment to our customers, success is guaranteed.

Our Products

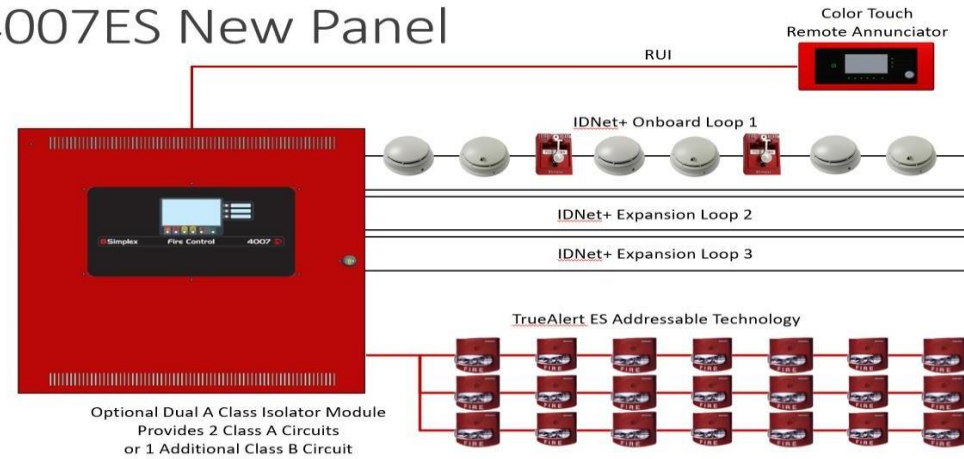

Fire and Safety Systems

Fire Alarm
Addressable and conventional release system

4007ES New Panel

Fire Fighting
oxygen reduction fire prevention system

FirePASS
Fire Prevention and Suppression Systems

Fire and Safety Systems

VESDA
Xtralis life safety solutions provide Very Early Smoke Detection Apparatus. Suitable for: Factories & Warehousing, Cultural/Heritage & Data & Telecom, Hospitals and Healthcare, Marine, Oil & Gas, Nuclear Facilities

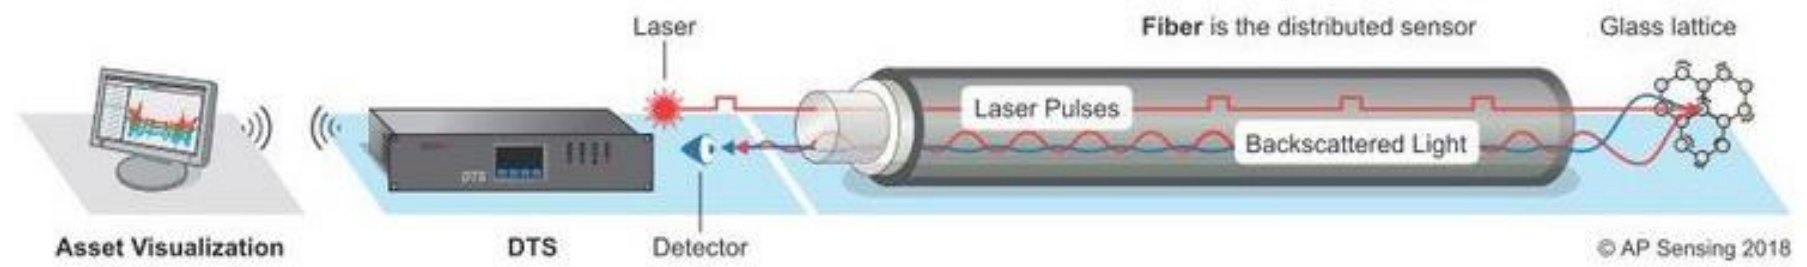

Explosion Proof
Gas sensors, Beam, Flame Detectors Flame, Sirens & Flashers

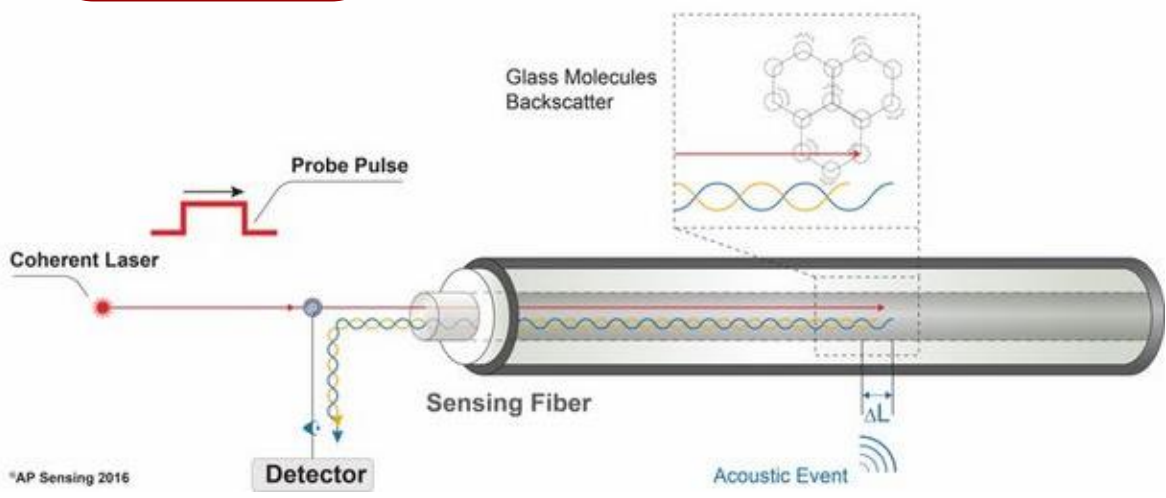

Distributed Optical Sensing

Distributed Temperature Sensing

Distributed Vibration and Acoustic Sensing

Power Cable Monitoring

Fire Detection

Pipeline Monitoring

Rail Way Monitoring

LNG Monitoring

GEO and Hydrological Monitoring

Well and Reservoir Monitoring

Clock System

Sapling clocks can be found in schools, hospitals and industries throughout the country and all over the world. Sapling features a complete line of analog and digital clock products for systems such as Wired, IP-PoE, Wi-Fi, Talkback and the synchronized Wireless clock system

American Time recognized leader in custom synchronized time solutions and notification systems. Simple to maintain clock systems and the EverAlert emergency communication system immediately impact the efficiency, safety and productivity of your building.

Audio Visual

Extron - Crestron products to create ideal solutions for an increasingly wide range of applications and environments such as: Training Rooms, Boardrooms, Collaboration Pods / Huddle Spaces, Executive Briefing Rooms, Classrooms/Lecture Halls, Meeting and Hospitals, Emergency Operations Centers, Shopping Centers / Restaurants, Theme Parks / Casinos, Museums / Concert Halls, Exercise Facilities

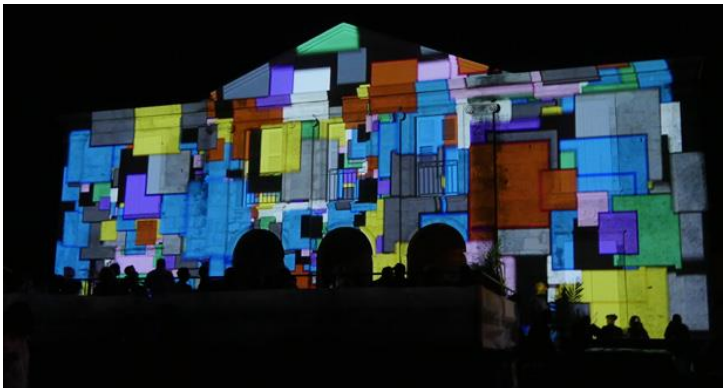

Extron®

Digital Projection A digital imaging pioneer and industry leader. These projectors are the reference standard for demanding applications such as large-venue, live- event staging, education, medical and scientific research, command and control, digital cinema, commercial entertainment, houses of worship and elite home cinema.

Cabling

WEST PENN

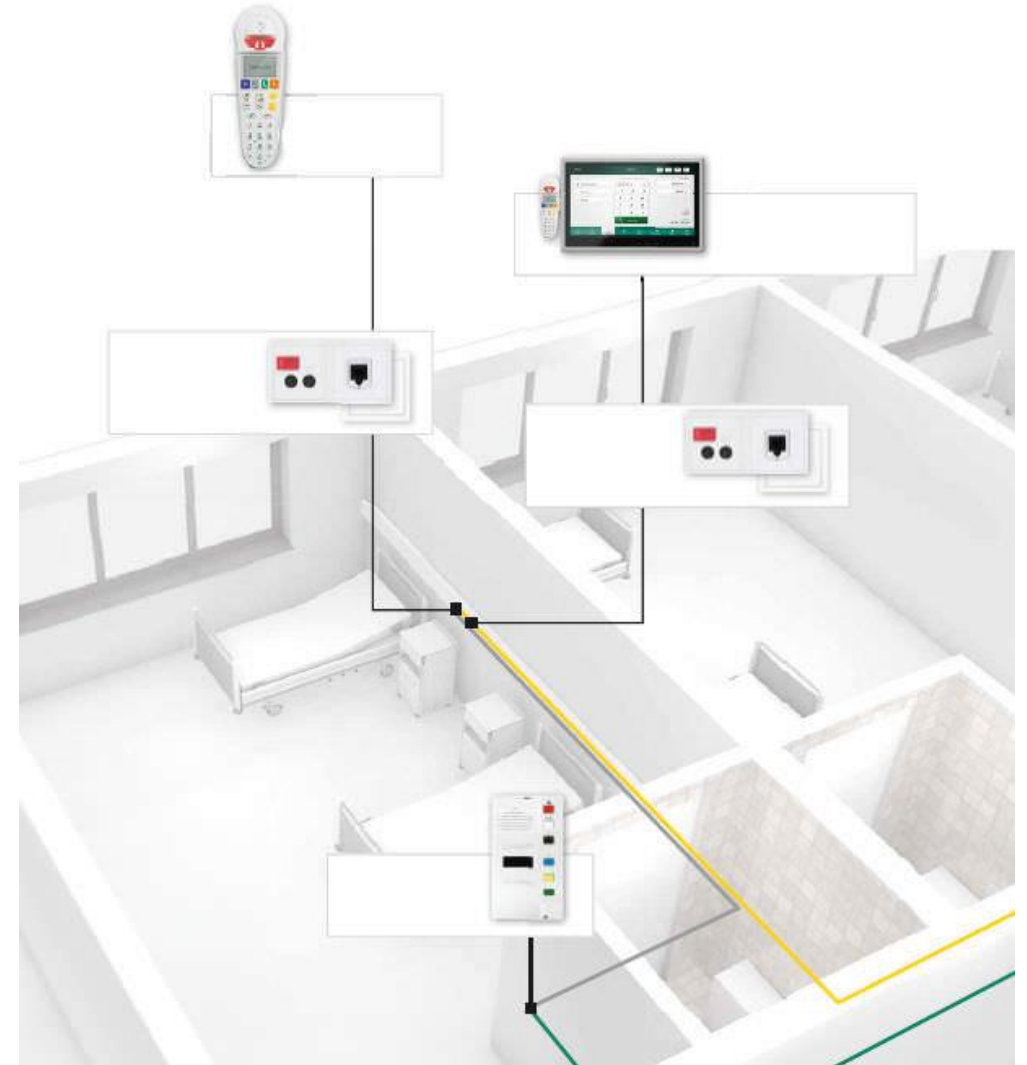

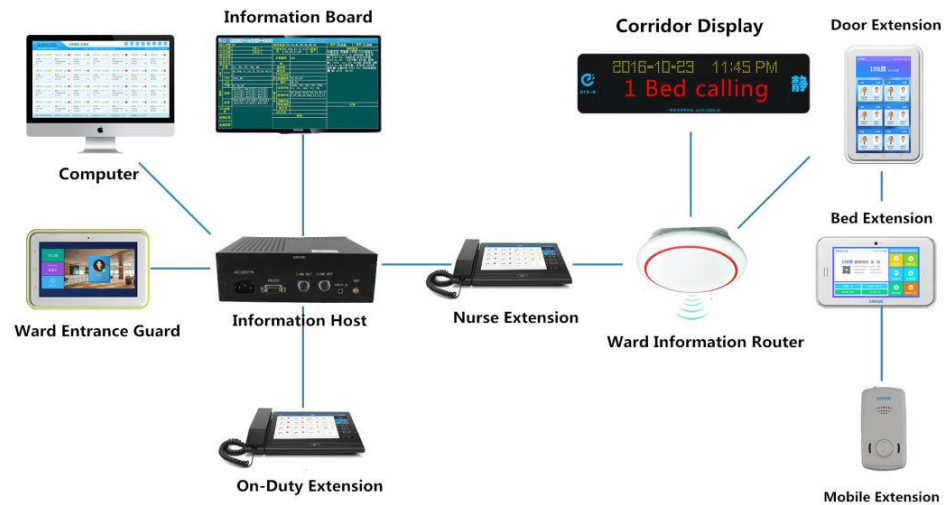

- **DRAKA Standard Fire-Resistant Cable: Firetuf FT30 Saffire (OHLS®) Flame Retardant cable manufactured to BS7629-1 and BS5266-1.**
- **DRAKA Power Cable Range includes:**
- **Saffire BS6724 - zero halogen, low smoke industrial power cable.**
- **Saffire BS6724 Auxiliary - industrial wiring for interconnection of systems.**
- **Firetuf FTP120 - fire resistant armoured power cable. Firetuf FTP - the original Draka fire resistant armoured power cable.**
- **BS5467 Power Cable - low voltage armoured power cable.**
- **BS5467 Auxiliary - multi-core armoured signal and pilot cable.**
- **BS7889 Power Cable - industrial single core wiring cable.**

Nurse Call System

Ackermann offers individual integrated solutions for security, patient comfort and the optimization of complex care and documentation processes. Envite C specializes in non-invasive sensor technology in intensive care and emergency medicine as well as in the field of mobile monitoring systems.
